

European Chamber Cybersecurity Conference Tentative Agenda

14 November, 2017, Wang Fu Ballroom, The Peninsula Beijing Hotel

13:00-13:30	Registration
13:30-13:40	Opening Remarks <ul style="list-style-type: none"> • Mats Harborn, President, European Union Chamber of Commerce in China
13:40-13:45	Message from the Cybersecurity Sub-working Group Chair <ul style="list-style-type: none"> • Clas Neumann, Chair of European Chamber Cybersecurity Sub-working Group, SAP Senior Vice President & Head of Global SAP Labs Network & Head of Fast Growth Market Strategy Group
13:45-14:00	The EU Perspective on Cybersecurity Dominique Klein, First Counsellor, EU Delegation to China
Session 1: Early implementation of the Cybersecurity Law <i>The Cybersecurity Law has been effective for six months and is shaping the business landscape. While relevant implementing rules are still being formulated, law enforcement cases have already reportedly taken place in regards to certain key provisions of the Law. What are the highlights of the early implementation of the Law? What do companies need to know currently to stay compliant?</i>	
14:00-14:50	Discussion <i>Lead-in presentation followed by discussion on what the government has targeted during the first six months. Seen as an illustrator into what they regard as the most important aspects of the law. What companies should be focusing their short term compliance efforts on?</i> <ul style="list-style-type: none"> • Carly Ramsey, Associate Director, Control Risks • Luo Yan, Special Council, Covington & Burling LLP • Lance Noble, Policy and Communications Manager, European Chamber (moderator)
14:50-15:05	Coffee Break
Session 2 <i>The development of new technology continues at breakneck speed: cloud computing, mobile connection, Internet of Things, industrial control systems and big data... While offering great potential for digitalization and the development of promising new markets, these developments also raise additional security challenges that both companies and government are trying to get prepared for. To answer such challenges, China is establishing a critical information infrastructure protection scheme, and will also expand its existing multi-level protection scheme to the abovementioned new areas. In this session we will address the question of technology development and cybersecurity from both business and regulatory perspectives.</i>	
15:05-15:45	Session 2A: Keeping Cybersecurity Apace with Technological Advancement Presentation followed by Q&A session moderated by Michael Chang, Vice President, European Union Chamber of Commerce in China <ul style="list-style-type: none"> • Clas Neumann, Chair of European Chamber Cybersecurity Sub-working Group, SAP Senior Vice President & Head of Global SAP Labs Network & Head of Fast Growth Market Strategy Group
15:45-16:30	Session 2B: Critical Information Infrastructure Protection & Cybersecurity Multi-

	<p>level Protection</p> <p>Presentation followed by Q&A session moderated by Michael Chang, Vice President of European Union Chamber of Commerce in China & Head of Industry Environment APAC, Technology & Innovation, Nokia</p> <ul style="list-style-type: none"> • Chen Jihong, Partner at Zhong Lun Law Firm
16:30-16:45	Coffee Break
<p>Session 3: Data Protection</p> <p><i>Data protection is high on China's cybersecurity agenda. While the country is drafting the Measures on the Security Assessment of Cross-border Transfer of Personal Information and Important Data, the formulation of a series of supporting standards, including but not limited to the Personal Information Security Specification and the Guidelines for Data Cross-border Transfer Security Assessment, is being concurrently advanced, attracting a great amount of attention.</i></p>
