Interaction and cooperation build business opportunities. I have served as board member in the Nanjing chapter for one year and I want to contribute to together build even better business opportunities for European companies.

European chamber is an important partner in highlighting the areas and focus on questions that European companies shares doing business in China. I will continue to bring the input from machining industry and companies with product development to the chambers work. One of my passion is sustainability and I will promote the activities with focus on environmental areas and CSR. European companies stand for sustainable development and we can share valuable experience between the companies and also with the Chinese organizations.

I am a Swedish citizen and live and work in Nanjing since 3.5 years. I am managing the Product company for Atlas Copco in Nanjing, where we develop and produce mining machines for the Chinese and global market. China and Nanjing brings big opportunities and also big challenges. To combine the Chinese drive and development with the experience and company from Europe is very interesting. To bring the best from the two together is my main mission.

I have more than 20 years working experience in industrial multinational companies in various business such as industry, automotive, telecom. My working experience include supply chain, production, sourcing, product development and general management.

I enjoy working in an international environment and to learn and understand more about other countries, cultures and how to make business in a different culture.

I live in Nanjing together with my family, husband and 2 children.
