

Candidate Motivation Letter

Name of Candidate: Stephen Lo
Chapter: EUCC Shanghai
Position: Board Member

Motivation Letter

Given the complex business environment in China, the European Union Chamber of Commerce in China plays a significant role to ensure fair play and access to the China market for European companies.

The intriguing combination of political, national and regional interests makes business operations in China a formidable challenge and on that basis it would be a great opportunity for me to participate on behalf of Covestro. That would ensure the company's voice is reflected in different topics while at the same time learn from others on their concerns. Under this notion, I expect an interactive participation as a board member not only in achieving Chamber objectives but getting a lot fun along the way!

In view of my over 20 years of overseas experience in studying and working in Europe and north-America, and together with my China experience, I am confident that I can make meaningful contributions to the Chamber by bridging cultural and technical topics. After all, we are pooling our expertise and experience together to facilitate the Chamber's mission. On this part alone is already a big motivation to become a board member of the Chamber!

Biography

Stephen Lo
Head of CFO Functions
Covestro Polymers (China) Co., Ltd.

Mr. Stephen Lo is currently the CFO at Covestro Polymers (China) Co., Ltd. Prior to this role, he was the

European Chamber
中国欧盟商会
