Motivation Letter

Living in Chongqing for more than 11 years, and having served the local board of the European Chamber for the past 2 years, I consider myself to be already quite familiar with the work and the environment of the European Chamber in Southwest China.

I successfully supported the Southwest Chapter in my position as Chongqing Representative by leading the draft of the Local Position Paper 2018/2019 and concluding several interviews on behalf of the Chamber. Thanks to the strong support of my employer, I was also able to attend all board meetings physically, and I can commit to do so also in the future in case I should be re-elected.

I wish to continue enhancing the brand, activities and membership recruitment of the European Chamber in the Southwest of China, and in that line, I am looking forward to your reply of my candidacy and would like to express my gratitude for considering me again.
