As a member of the European Chamber, in the past few years, I have participated in many activities organized by the Chamber, extensively linking members and members, as well as members and governments. I have seen that the scale and influence of the Chamber are constantly growing.

I hope that in the next two years, I can provide better services and more contributions. As local personnel of European MNC, I can better bridge with the government, understand the policy and process, implement influence, and promote the Chamber to better serve our members, solve their pain points, and bring more opportunities.
